Find Out About Events?

...How??

Most of you are familiar with facebook or myspace but might not have heard the term 'forum' before. Well forums are just another name for discussion boards or message boards and they enable users of a website to interact with each other by exchanging tips and discussing hot topics for example.

Forums save information posted on a particular topic for other people to see at any time and reply to, this creates a discussion environment. Everything that gets posted gets read again and again.

Furthermore it is extremely easy to use if you are an internet-o-phobic but best of all it's completely free. Log onto www.humbersidescouts.org.uk and click on 'forum' before registering today!!
